

The steam car is *back!* Climb the steepest street without shifting gears, operate without a clutch or transmission, engine noise, and cut costs on gas to .017, all with this progressive automobile. Traverse different landscapes and take time to breathe in the fresh air, appreciate both the urban environment and nature. Stare out the window. Forget about the fumes from your vehicle destroying your sense of transportation meditation. As you turn each page, take time to remember that innovation comes with patience, and appreciation comes with living in the now. The steam car takes 30 seconds to start, just enough time for you collect yourself before going on a journey to the new. Visit places you've never been in a car that has been re-invented for your own pleasure.
